

AI Governance & Requirements Document

Project Name: Customer Service Chatbot
Version: 1.0
Date: April 2025
Prepared by: Carramah

1. PROJECT OVERVIEW

Field	Details
Project Name	Customer Service AI Chatbot
Purpose	Automate customer service interactions
Primary Users	Customers
Platform	Web/App Chat Interface

2. MANDATORY DISCLOSURE POLICY

- Users must be clearly informed at the start of every conversation that they are interacting with an AI, not a human.
- Disclosure must appear before any data is collected.
- Comply with Utah's AI Policy Act and California's SB 243.

Example Disclosure Message:

“Hi! I'm an AI-powered virtual assistant here to help you. For complex issues, I can connect you with a human agent at any time.”

3. DATA PRIVACY & SECURITY

Compliance: GDPR, CCPA, FTC Guidelines

Rule	Requirement
Data Minimization	Collect only what is necessary
Training Use	No training on conversations without explicit consent
Legal Status	Conversations are not legally privileged
High-Risk Decisions	Require special compliance review
Sensitive Data	Do not store unnecessarily

4. GUARDRAILS & CONTENT FILTERS

Prohibited Action	Reason
Impersonate licensed professionals	Legal liability
Generate harmful/illegal/explicit content	Safety compliance
Share data without consent	Privacy violation
High-risk decisions without review	Regulatory compliance

Claim to be human	Mandatory disclosure law
-------------------	--------------------------

Required Behaviors: Stay within scope, politely refuse out-of-scope requests, always offer human escalation.

5. HUMAN ESCALATION MECHANISM

Escalate for complex issues, human requests, legal/compliance matters, emotionally distressed users, fraud/security concerns.

Process: AI detects trigger → informs user → transfers history → human agent takes over.

6. ACCURACY & MONITORING

Audit Type	Frequency
Chat log review	Weekly
Bias detection check	Monthly
Hallucination audit	Monthly
Full compliance review	Quarterly
Vendor contract review	Annually

7. VENDOR MANAGEMENT

Contracts should cover data processing obligations, IP ownership, liability limits, breach notification, and compliance certifications.

8. KPIs & SUCCESS METRICS

KPI	Target
Customer Satisfaction Score (CSAT)	≥ 85%
First Contact Resolution Rate	≥ 75%
Escalation Rate	≤ 20%
Response Accuracy Rate	≥ 90%
Average Response Time	< 3 seconds
Compliance Audit Pass Rate	100%
Data Privacy Incidents	0

9. COMMON PITFALLS TO AVOID

- Allowing bots to impersonate professionals
- Using data for training without consent
- Assuming legal privilege
- Failing to disclose AI use upfront
- Skipping bias/accuracy audits

10. APPROVAL & SIGN-OFF

Role	Name	Date
Project Owner		
Legal/Compliance		
Data Privacy Officer		
Technical Lead
